Action Taken Report on Feedback Analysis about Curriculum
Academic Year: 2021-22**

Feedback is an essential element of the learning process. The College collects the feedback on various curriculum aspects and courses from students, teachers and alumni through online. For this purpose, a google form was created and sent to students. Feedback on curriculum is designed to get formative feedback from different stakeholders that can be used towards the improvements in the quality of course delivery, as well as student learning experiences. An effort was made to receive feedback from all students and teachers of the college. As many as 42 responses have been received from the students and 11 are received from teachers. The feedback collected from the students and teachers has been analysed and taken to the consideration for the development of curriculum, teaching learning process and environment.

Feedback Analysis

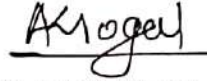

Student's feedback is a main factor for the enhancement of the learning environment. The college obtained online feedback on curriculum from student and teachers. After the analysis of feedback forms received from the students and teachers, some of the major outcomes noticed as follow:

- The depth of the course is adequate in relation to the expected course outcomes.
- Students agreed that the relevance of the units in syllabus are relevant to the course.
- Most of the students are satisfied with course content and curriculum for successful career.
- The curriculum is capable to enhance employ ability and meet the need of the industry.
- The curriculum has a good combination of theory and practicals.
- Length of the syllabus should be improved.
- The syllabus design is well structure, achieving a balance between fundamentals and advanced topics.

Action Taken

- Department will take efforts to Organized seminar/workshop for getting scientific knowledge.
- Department will Arranged more field visits for getting practical knowledge.
- Organized career guidance and soft skills development programs.
- The faculties continue using advanced technologies in teaching learning process like ICT, smart board, power point presentation, some software related to mathematics, statistics, physics etc.
- Well equipped laboratories will be making available for getting practical knowledge.
- Students will be encouraged to participate in Cultural and sports activities to enhance life skills of the students.
